RESEARCH EXPERIENCE

- **Washington University in St. Louis** St. Louis, MO
Undergraduate Independent Study, Advisor: Prof. Yevgeniy Vorobeychik Aug. 2023 – May 2024
 - Worked with an existing 1/10th-scale F1Tenth autonomous vehicle platform, maintaining the hardware and extending the software stack for autonomous lane following tasks in a miniature city environment.
 - Implemented and tuned perception and control modules using onboard camera and LiDAR data, iterating on the system through real-world testing on the physical track.
